

Thanks for purchasing the Vlieland chair!

In this manual we explain step by step how to assemble the chair.

### What do you need?

- Power tool
- Drill (we advise size 4)
- Sandpaper (we advise p 100)
- Tape measure

Step 1: **Sandpaper**, sandpaper both sides of the planks.

### Step 2: **Sidepanels**

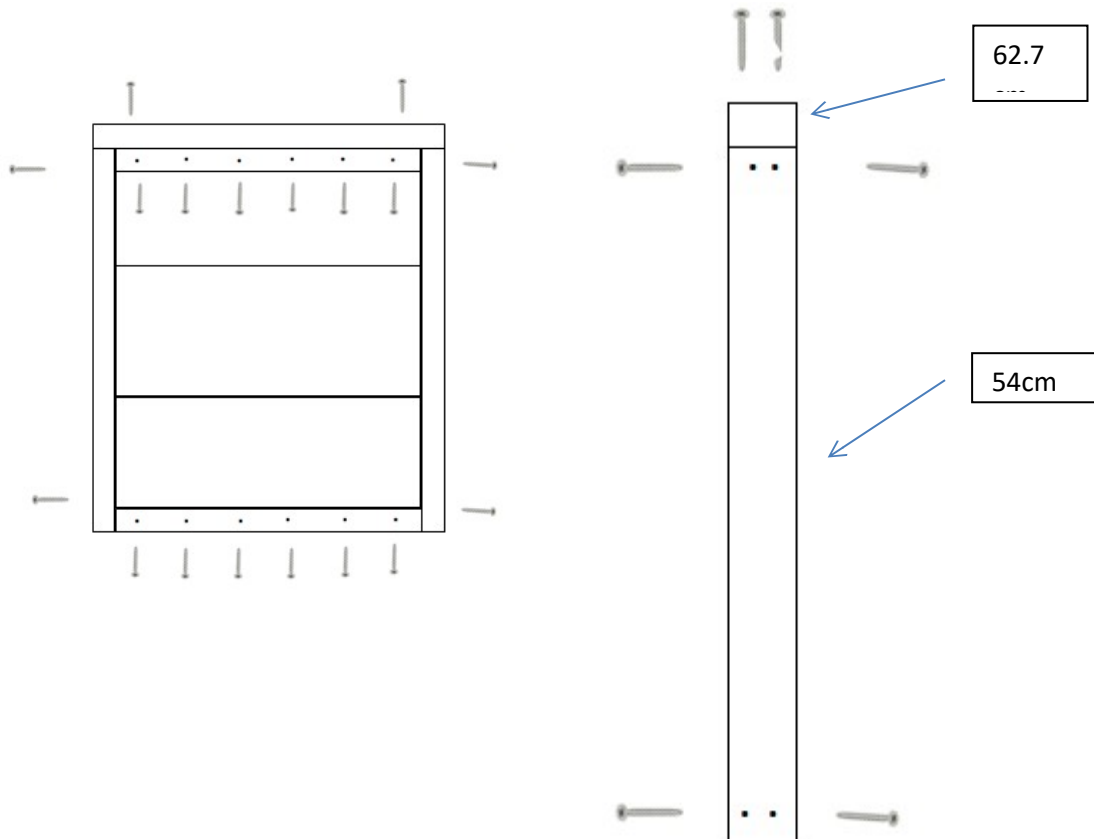

You need the following planks/slats:

- 6 x 18 x 57 cm
- 2 x 5.6 x 62.7 cm
- 4 x 3 x 54 cm
- 4 x 5.6 x 54.2 cm

Laydown 3 planks (18x57cm) next to each other. Place 2 slats (54x3cm) on the sides of the planks. Drill the holes and mount them.

Laydown 2 slats (54x5.6cm) on the mounted planks. Drill holes and mount them. Take a slat (63.7x5.6cm) Mount them on 2 sides of the beams you just mounted.

Repeat this procedure to assemble a second side panel.

### Step 3 : The seating

You need the following planks/slats:

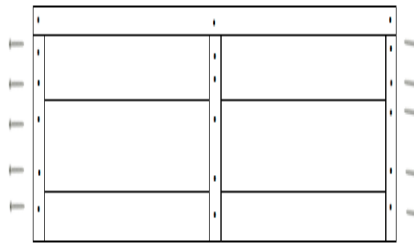

- 2 x 53 x 18 cm
- 1 x 53 x 12 cm
- 1 x 53 x 5 cm

- 3 x 42 x 2.7 cm

Put down 2 planks (53x18cm) and 1 plank (53x12) next to each other. Put the widest plank on the outside. Drill the holes and put them between the 2 side panels.

Laydown a slat (53x5cm) under the first plank of the seating. Laydown the slat (42x2.7cm) in the centre and mount it. (this is a support beam)

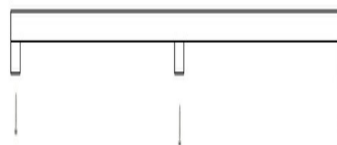

Laydown 2 slats (42x2.7cm) on the sides. Mount them with 6 Phillip heads through the seating surface in to the beam. Mount the beams to the sidepanels with 4 phillip heads.

#### Step 4: **The backrest**

You need the following planks/slats:

- 2 x 53 x 18 cm

- 3 x 33 x 2.7 cm

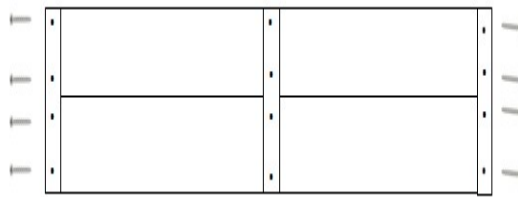

Place 2 planks (53x18cm) on top of each other. Laydown 3 slats (33x2.7) on these planks (see picture). Drill on the top of the slat 4 holes. ( Holes have to be scatterd through the length of the slat)

Repeat this with the other 2 slats.

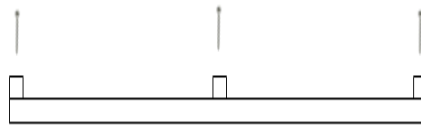

To mount the backpiece on the seating, you have to drill 3 holes on the inside of the 2 outer slats. (this 3 phillip heads aren't in the picture)

They are needed to mount the backrest to the rest of the chair. Make sure the phillip heads don't touch each other!
